

Aurora Materials Annual Report

Fiscal Year Summary

Contents

- 1. Overview 2
- 2. Financial Results 2
- 3. Outlook 3

1. Overview

Aurora Materials develops high-durability composite panels for the construction sector. During the fiscal year the company expanded its coating facility and completed certification for two new panel families. Revenue grew across all regions

¹ , led by the Asia-Pacific segment.

2. Financial Results

Region	Revenue (M)	Growth	Share
Asia-Pacific	412.5	18%	41%
Europe	301.2	9%	30%
Americas	289.9	6%	29%

Gross margin improved by two percentage points as raw-material costs stabilized. Operating expenses remained flat in absolute terms.

¹ Revenue figures are unaudited management estimates.

3. Outlook

Initiative	Target Year	Status
Coating line 2	Next year	Approved
Recycled feedstock	Two years	Pilot

Management expects demand to remain firm. Capacity utilisation is projected to stay above ninety percent through the planning horizon, supported by the order backlog carried into the new fiscal year.
